# WINDOWS

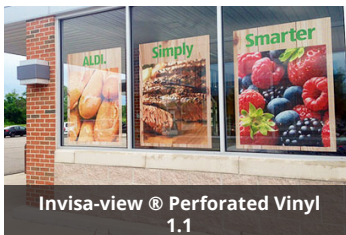

SEE MORE

Front windows are an important area for store signage that facilitates the first engagement with shoppers and works as a portal to what is inside. Signage applications for windows fall into 3 different areas:

Windows- Exterior, Windows- Interior and Windows- Display.

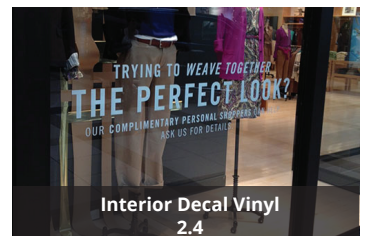

## WINDOWS- EXTERIOR

Graphics are applied to the outside surface of the glass. Products for outside use are able to withstand all weather conditions.

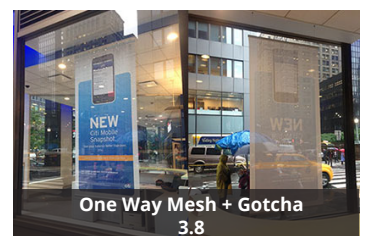

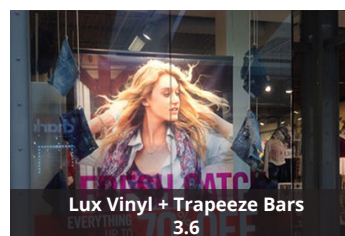

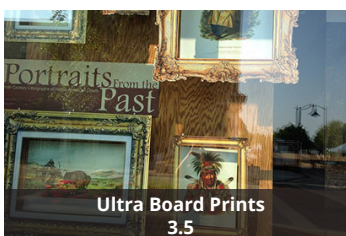

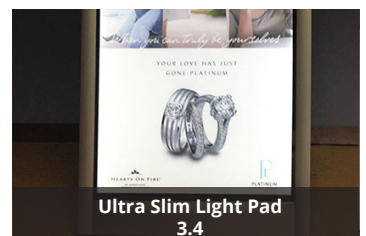

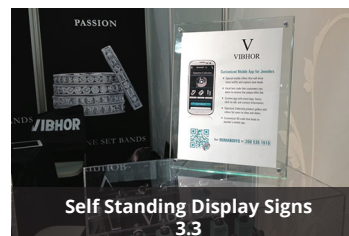

## WINDOWS- INTERIOR

Graphics are applied to the inside surface of the window. Most have a non-adhesive static cling front.

## WINDOWS- DISPLAY

Signage that is viewed thru the window but is not applied directly to the glass.

# WALLS

SEE MORE

Wall space provides some of the best opportunities for effective signage. The application used depends on the type of surface (painted dry wall, wallpaper covered or uneven texture) or the method of affixing the signs (hang, stick or heat). Ideally, brands and retailers should designate the wall space behind product showcases and shelves to display product specific signage.

# CEILING HANGING

SEE MORE

Signage that hangs from the ceiling can be viewed by shoppers from different angles, so it is important to consider viewing perspective when suspending graphics. Often, there is a need for double-sided signage with these applications. Ceiling hanging signage can be made more effective by using the natural sightlines that exist in the store.

# COUNTERS AND CASES

SEE MORE

Countertops and display showcases require signage that is meant to fit small areas. Go beyond the average counter card to offer signage products that exude luxury and are flexible for most display environments. Counter signage should augment other forms of signage inside the store and reinforce the retail and brand message.

VISUALS VIBES FOR BRANDS AND RETAILERS

### Signage

🔊 [sahy-nij]

Noun:

1. Graphic designs, as images, emblems, or words, used for identification or as a means of giving directions or inspiration.

# SIGNAGE THAT INFLUENCES IN-STORE PURCHASES

40 VISUALS is an experienced and preferred supplier of in-store signage for many premium brands and retailers. The 40 VISUALS focus is on visual signage products that engage and influence the customer with their in-store buying decisions. From entrance of the store, to the last 40 inches at the cash register, the customer's buying decision is influenced by signage all the way to the point-of-purchasing.

# THE BUDGETING CHALLENGE FOR GREAT SIGNAGE

---

Maximizing your signage budget across a wide network of retail locations is a major challenge.

Not every retailer in a brand's distribution channel uses signage the same way, as each retail environment is different. Signage

that works best in one environment might be totally ineffective in another. The ultimate goal is to produce branded signage that is unique to each retail environment and do it all within budget. Since 1999, 40 VISUALS has helped premium brands maximize their signage marketing budget, so brands can supply their retailers with more and better signage for less.

# SIGNAGE OPTIONS FOR EVERY RETAIL ENVIRONMENT

---

ONE SIZE SIGNAGE DOES NOT FIT ALL. To have a impactful retail presence, premium brands recognize that they must provide a variety of signage options and make them available in virtually any size.

# GRAPHIC LAYOUT EXPERTISE

It can be a logistical nightmare trying to accommodate different layout sizes for each individual graphic all in a custom retail environment. Our experienced team of graphic designers help prep files to meet the demands of unique sizes and orientation needs, that comes from working with a large network of independent retailers.

# BRANDED PACKAGING THAT WON'T ARRIVE DAMAGED

---

Packaging makes a difference, that is why we put extra care into packaging your signage with the attention it deserves. Each shipment, shipped directly from our headquarters, will be branded with your logo to help retailers quickly identify who it is from and the contents of the package, setting your brand apart from others.

NOT ONLY WILL BRANDED PACKAGING SET YOU APART FROM OTHER BRANDS, BUT IT WILL HELP YOUR RETAILERS QUICKLY IDENTIFY THE CONTENTS OF YOUR PACKAGE AND EASILY LET YOUR CUSTOMER KNOW WHO THE PACKAGE IS FROM.

“

*Dear Visual Team,*

*All was very nicely executed and the follow-up was terrific!  
For such a big campaign roll-out, it went so smoothly.  
Congrats to all involved making this happen.  
AND the retailer feedback is very, very positive!  
Cheers.*

Tony C.  
Senior Regional Director - TAG Heuer

## ROLL-OUTS MADE EASY

---

Brands know that print signage is an important ingredient to a successful visual marketing effort, especially when it comes to rolling out new products and celebrity ambassadors. Roll-outs involve replacing graphics in all of your retail locations, usually in just a short period of time. We make your roll-outs easier. Between our signage management system, graphic design team, branded packaging and our nationwide installation service, we can help guide you through the process.

WE MAKE YOUR ROLL-OUTS EASIER.

## NATIONWIDE INSTALLATION SERVICE

---

Large printed graphics are sometimes best left to the professionals to install.

Visual displays are an investment to the store and an important first impression brands have with shoppers. With this in mind, large printed graphics are sometimes best left to the professionals to install. That is why 40 VISUALS offers a national graphic installation service when signage is ordered. Your graphics will be represented the way they were intended. There are additional costs for this service but the benefits are well worth it. From large retail store windows to hanging backlit displays, 40 VISUALS is dedicated to making sure that every graphic fits the visual needs of the store.
